Front seat passenger's weight _____ (this includes the examiner's weight) Back seat passenger's weight – Scenario dependent

Baggage based on scenario

You may use Fore-Flight or Garmin Pilot. However, you will need to demonstrate proficiency in the use of your device and be able to explain how or why the software comes up with the resulting information. Bring a **paper Detroit sectional** even if you use electronic. Either the paper or electronic must be current. You will also be tested in the aircraft on basic pilotage. (without any electronic assistance)

Marginal or IFR weather on test day. Even though I will make the final decision, you need to make a go/no-go decision on test day. If the weather is questionable, talk to your instructor first, and then give me a call. **I will not initiate a weather cancellation before you arrive** and we will not begin the test if it is likely that we can not fly.

Please come dressed as a professional. No open footwear, sleeveless tops, or short pants / mini skirts.

Research and write out subject areas of knowledge test deficiencies.
